Communicating With Your Family or Personal Representative

Most patients allow Us to discuss their PHI with family members, guardians, persons named in a health care power of attorney or advanced directive (living will), Personal Representatives, or others who are assisting in their care or helping with medical bills. This may include discussing or answering questions a family member (spouse, adult children, parents, guardians, or Personal Representatives) may have about your condition, Treatment, medication and refills, or appointments. Emancipated and Mature Minors

We usually share the PHI of a minor (a person less than 18 years old) with the minor's parents or guardian. We will not share PHI with the parent(s) or guardian of an emancipated minor. In some cases, if requested, We may not share PHI of a mature minor (generally 14 but less than 18) with the minor's parent(s), guardian, or health plan for certain conditions, including alcohol or substance abuse, obstetrical care, or STDs. We will encourage the minor to involve parent(s) or guardian.

Deceased Patients

We will Disclose PHI of deceased patients to the probate court's appointed Executor or Administrator of the deceased patient's estate. We also may Disclose PHI to the patient's spouse, family, Personal Representative, or others involved in the patient's care or management of the patient's affairs, unless doing so would be contrary to the patient's expressed wishes known to Us. We may Disclose PHI of any deceased patient without an Authorization after 50 years.

Use and Disclosure of PHI You Authorize and Your Right to Cancel Authorization

We will not Use or Disclose your PHI other than for Treatment, Payment, or Health Care Operations without a valid, signed Authorization, except as stated in this Notice or otherwise Required by Law. We will not condition your Treatment on your signing an Authorization.

The date on your Authorization generally should not be more than 60 days before you give it to Us. We may ask you to sign a new Authorization if the date is more than 60 days, or if We have questions. This is for your protection. You may fax a copy of your Authorization to Us at (330) 262-5427.

We will not Disclose Psychotherapy Notes without a signed Authorization unless Required by Law.

We will not Disclose your PHI to your employer without a signed Authorization. We will not release medical records if We are subpoenaed, unless you sign an Authorization, or the lawyers sign a Qualified Protective Order, or if We receive a valid, signed court or administrative order.

You may authorize Us to Disclose PHI to persons who are not Covered Entities or Business Associates. Once that information is Disclosed to a non-Covered person, HIPAA no longer applies. A person or entity not covered by HIPAA may use or re-disclose medical information it receives in any way that is not prohibited by law.

You may cancel your Authorization in writing at any time by faxing your cancellation to (330)262-5427 or delivering it in person to Our Medical Records Department. Once We receive your written cancellation, We no longer will Disclose your PHI. We are not responsible for any Use or Disclosure of PHI consistent with the Authorization before We receive your written cancellation.

Public Health Agencies. We may Disclose PHI to public health agencies for reporting births and deaths, to help control disease, injury or disability, or to report cases of suspected abuse, neglect, or domestic violence.

FDA and OSHA. The FDA and OSHA require Us to Disclose PHI in reporting adverse events, product problems, and biological product deviations, so safety precautions, recalls, and notifications can be conducted.

Regulatory Agencies. We may Disclose PHI to certain Ohio and Federal governmental regulatory and health oversight agencies for purposes of their reviewing health care system, civil rights, privacy laws, and compliance with other governmental programs.

National and Homeland Security. We may Disclose information concerning patients to authorized federal officials for intelligence and other National and Homeland Security purposes.

Prevent Threat of Serious Harm. If you are an inmate of a jail, prison, correctional institution, or under the custody of law enforcement officials, We may release medical information about you for purposes of: (1) the institution's providing you with health care; (2) protecting your health and safety and the health and safety of others; and (3) protecting the safety and security of the correctional institution or custodial facility.

Individual Rights

You May Request Restrictions on Certain Uses and Disclosures of PHI

You may request that We do not Disclose certain PHI to family members, Personal Representatives, friends or others. HIPAA's Privacy Rule gives hospitals and doctors the right to deny a patient's request to restrict the Use or Disclosure of PHI when it is being Used or Disclosed to other Covered Entities for Treatment purposes.

We will honor your request to restrict the Use or Disclosure of PHI when submitting a claim to an insurance or a health plan for reimbursement if you agree in writing to pay the claim in full out-of-pocket. We will consider all other requests for restricted Use or Disclosure of PHI on a case-by-case basis. If We cannot accommodate your request, We will let you know.

You May Access, Inspect, and Receive a Copy of Your Own PHI

You have the general right to inspect and have a copy of your own PHI in a Designated Record Set. There are exceptions. You may not have the right to inspect or copy Psychotherapy Notes or information compiled for civil, criminal or administrative proceedings. Your right may not extend to information covered by other laws or information obtained from someone other than another Health Care Provider. We may deny access if, in Our judgment, seeing that information could endanger the life or safety of you or another. We may charge you at the rate the law permits for copying records.

You may request access to your PHI by contacting Medical Records (330) 263-8615. We will consider all requests according to Our legal responsibilities under the Privacy Rule.

We will try to respond within 30 days from when We receive the request. Sometimes, it may take more than 30 days in which case We will act as soon as reasonably practical. If We grant your request, We will set up an appointment for you to inspect your PHI. If you request access to PHI that is maintained in an electronic record or electronic Designated Data Set, We may provide an electronic "machine readable copy" in a standard format enabling the ePHI to be processed and analyzed by a computer in a manner that accommodates requests for specific formats.

Alternatively, you may ask for a written summary of your health information instead of inspecting or copying your records. We may charge you for a summary. If We are unable to grant your request, We will notify you in writing of the basis for the denial and your rights for review.

You May Amend Incorrect or Incomplete PHI

You may request in writing that incorrect or incomplete PHI in your record be amended delivering it in person, mailing it, or faxing it to the Medical Records Department at (330)262-5427. We usually will respond to your request within 60 days from when We receive your written request.

We will grant your request if PHI that We created or maintain in a Designated Record Set is incorrect or incomplete. For example, if the medical record states that you were treated for a broken left leg, when it was your right leg, you may amend the incorrect information. We will not amend your health information if it is not part of a Designated Record Set or was not created by Us, if it would not be available for you to inspect, or if the information is accurate and complete. For example, if you wanted to delete information about your medical history from your medical record, because it is embarrassing, We cannot amend that information if it is correct and part of the medical record.

If We grant your request, We will amend PHI in the Designated Record Set. We will inform you that We have made the amendment. We will inform persons who have received and may have relied on PHI that it has been amended.

If We deny your request, We will: (1) tell you in writing the reason for denial; (2) inform you of your right to submit a written statement of disagreement, which We will keep with your record and will include with future disclosures; and (3) inform you of your right to file a Complaint. If you file a statement of disagreement, We may prepare a written rebuttal. If you have questions about this right, please contact Our Privacy Officer at (330) 263-8615.

You May Receive an Accounting of Disclosures of Health Information

You have a right to receive an Accounting of Disclosures We have made to others of your PHI up to six years prior to the date in which the request for an Accounting is made. There are certain exceptions and limitations, including, but not limited to Disclosures made: (1) for Treatment, Payment, and Health Care Operations; (2) to the Individual or Personal Representative of the Individuals own PHI; and (3) according to a signed Authorization.

You may request an Accounting of Disclosures in writing at the Medical Records Department. The first Accounting you request within a 12-month period will be free. For additional Accountings, We may charge you for the cost of preparing the list.

Your have a Right to Receive a Breach Notification

We will promptly notify you by first-class mail, at your last known address, or by email (if you prefer) if We Discover a Breach of Unsecured PHI, which includes the unauthorized acquisition, access, Use, or Disclosure of your PHI, unless We determine that a low probability exists that the compromise of your PHI would cause you financial, reputational, or other harm by conducting a Risk Assessment. We will include in the Breach Notice a brief description of what happened, a description of the types of Unsecured PHI involved, steps you should take to protect yourself from potential harm, a description of what We are doing to investigate the Breach and mitigate potential harm, and contact information for you to ask questions and learn additional information.

Health Information Exchange

Wooster Community Hospital and Bloomington Medical Services endorses, supports, and participates in electronic Health Information Exchange (HIE) as a means to improve the quality of your health and healthcare experience. HIE provides us with a way to securely and efficiently share patients' clinical information electronically with other physicians and health care providers that participate in the HIE network. Using HIE helps your health care providers to more effectively share information and provide you with better care. The HIE also enables emergency medical personnel and other providers who are treating you to have immediate access to your medical

data that may be critical for your care. Making your health information available to your health care providers through the HIE can also help reduce your costs by eliminating unnecessary duplication of tests and procedures. However, you may choose to opt-out of participation in the CliniSync HIE, or cancel an opt-out choice, at any time.

You may do so by filling out a complaint form, contacting Our website (www.woosterhospital.org), or calling Our Privacy Officer at (330) 263-8615.

If We did not make a mistake, We will provide you with an explanation. We will make every effort to get back to you within 30 days.

Under no circumstances will We retaliate against you for expressing a concern or filing a complaint relating to your Privacy rights. If you are not satisfied by Our response, or if you choose not to send a complaint to Us first, you may contact the Office for Civil Rights for the Department of Health and Human Services in Washington, D.C. in writing within 180 days of the suspected violation or Breach.

We reserve the right to change this Notice at any time, which We may make effective for PHI We already Used or Disclosed, or for any PHI We may create, receive, Use, or Disclose in the future. We will make material changes based on changes in the HIPAA laws.
