

DXA Body Composition

Quick, Noninvasive and Painless

Measure the exact **body fat, lean muscle and bone** in your body!
The **low-energy x-ray** measures the different types of tissues within
the body in the most precise way available.

Beneficial to people that are:

- Obese
- Diabetic
- Involved in a weight management program
- Anorexic
- Sarcopenic
- Fitness enthusiasts
- Anyone wanting to better their health

It's Easy!
No Special Prep is Needed.
Instant Results.

A physician order is needed prior to performing the test, contact your healthcare provider for the order a few days before your appointment.

This is a non-insurance billable test, but it's affordable!

The cost for the initial scan is \$50, and any follow-up scans are \$25.

Payment is due at the time of service. Health Savings Accounts may cover the cost of the test.
