Awards and Recognition

**Fortune/IBM Watson Health**

Wooster Community Hospital (WCH) again named to the list of 100 top hospitals by Fortune/IBM Watson Health. This is the 6th time WCH has received this honor as one of the top performing hospitals in the U.S. The prestigious award recognizes top-performing hospitals in the U.S. based on publicly available clinical, operational and patient satisfaction metrics and data. WCH received a score of 99.9th percentile and was #1 as a medium community hospital in the nation.

**Accredited Chest Pain Center**

Hospitals that have earned the ACC Chest Pain Center with Primary PCI® Accreditation have PROVEN EXCEPTIONAL competency in treating patients with heart attack symptoms and have primary PCI available 24/7 every day of the year.

*PCI refers to percutaneous coronary intervention, also known as coronary angioplasty.

**Best Nursing Homes**

Awarded to long-term nursing facilities that provide outstanding patient care to their residents. Wooster Community Hospital is recognized as being in the top 10% of nursing homes nationally to receive this award.

**5-Star Recognition from CMS**

Wooster Community Hospital (WCH) has earned a five-star rating under the Overall Hospital Quality Star Ratings for 2020 by the Centers for Medicare & Medicaid Services (CMS). WCH is one of 407 U.S. hospitals to receive a five-star rating, out of 4,500 nationwide. CMS assigns star ratings of one, two, three, four, or five stars to U.S. hospitals. Ratings are based on a hospital’s performance across seven areas of quality. This validates our hospital’s commitment to clinical excellence.

**America’s 100 Best Hospitals for Patient Experience**

The ‘America’s Best’ hospitals demonstrate exceptional ratings and provide the highest level of care and commitment to their patients’ health and well-being. This Award takes into consideration the preferences of women when selecting a hospital. Wooster Community Hospital is one of 13 hospitals in Ohio and one of 100 in the nation to receive this award.

**Newsweek’s World’s Best Hospitals 2020**

Wooster Community Hospital (WCH) was recognized as part of Newsweek’s annual list of World’s Best Hospitals for 2020. This prestigious award is presented by Newsweek and Statista Inc., the world-leading statistics portal and industry ranking provider. The award was based on a complex methodology to ensure the quality and validity of the ranking. Three data sources were used for the evaluation: hospital recommendations from peers, patient experience, and various medical key performance indicators.

**Accredited Program**

Designation for commitment to improving survival and quality of life for cancer patients.

**2020 ‘A’ Safety Rating**

Wooster Community Hospital (WCH) was awarded an ‘A’ from Leapfrog Hospital Safety Grade, a national distinction recognizing WCH’s achievements providing safer health care. The Leapfrog Group is an independent national watchdog organization committed to health care quality and safety. The Safety Grade is a letter grade assigned to all hospitals across the country. Leapfrog Hospital Safety Grade uses up to 28 measures of publicly available hospital safety data to assign grades to more than 2,600 U.S. acute-care hospitals. The Hospital Safety Grade’s methodology is peer-reviewed and fully transparent, and the results are free to the public.

**Stroke Silver Quality Achievement Award**

Wooster Community Hospital (WCH) received the American Heart Association/American Stroke Association’s Get With The Guidelines®-Stroke Silver Plus Quality Achievement Award. The award recognizes the hospital’s commitment to ensuring stroke patients receive the most appropriate treatment according to nationally recognized, research-based guidelines based on the latest scientific evidence. WCH earned the award by meeting specific quality achievement measures for the diagnosis and treatment of stroke patients at a set level for a designated period. These measures include evaluation of the proper use of medications and other stroke treatments aligned with the most up-to-date, evidence-based guidelines with the goal of speeding recovery and reducing death and disability for stroke patients. Before discharge, patients should also receive education on managing their health, get a follow-up visit scheduled, as well as other care transition interventions.
